

## Automotive

### **Dong-Eun Forging Co. Ltd.**

#### **Client**

DongEun Forging Co. Ltd., designated as a Promising Small and Medium Size Industry by the CGF, is a leading Korean producer of engine and transmission parts for automobiles.

#### **Challenge**

The opening of a second factory with their largest stamping equipment to date nearly doubled the company's expenditure on electricity.

#### **Solution**

By installing Power Optimizers™ on their 2500 ton and 1600 ton Stamping Presses, we were able to reduce the DongEun Forging Co.'s electrical expense on this equipment by 13.68%.
